### One spray of Atrazine controls weeds and grasses in corn.

You can reduce or even eliminate the need for cultivating corn. Just spray Atrazine 80W herbicide at planting. Rainfall moves it into the soil to give you season-long control of most annual broadleaf weeds and

Growing clean corn with Atrazine means your crop won't have weed competition for moisture and soil nutrients. So your yields will be higher. Profits, too. And, you'll free labor and equipment for

other important farm tasks, like planting cotton or tobacco. This year, take advantage of weed control in corn with Atrazine . . . the herbicide you spray just once for season-long con-

One spray of Atrazine controls weeds and grasses in corn.

You can reduce or even eliminate the need for cultivating corn. Just spray Atrazine 80W herbicide at planting. Rainfall moves it into the soil to give you season-long control of most annual broadleaf weeds and

Growing clean corn with Atrazine means your crop won't have weed competition for moisture and soil nutrients. So your yields will be higher. Profits, too. And, you'll free labor and equipment for other important farm tasks, like planting cotton or tobacco. This year, take advantage of weed con-
